The chameleons

Animath — Stage olympique de Sophia-Antipolis · 2006 · France

34 chameleons live on a desert island. At first, 7 are yellow, 10 are red and 17 are green. When two chameleons of different colours meet, both take the third colour. When two chameleons of the same colour meet, nothing happens. After one year, all the chameleons have the same colour. Which one ?
