Signs between 1 and 100

Animath — Stage olympique de Sophia-Antipolis · 2006 · France

---

The numbers from 1 to 100 are written side by side on a board. Alice and Bob alternately place one of the signs $+$, $-$ or $\times$ in the first free gap between two numbers. If Alice writes the first sign, show that she has a strategy to obtain an odd result. Can Bob prevent Alice from obtaining an even result ?
