Products of rows and columns

Animath — Stage olympique de Sophia-Antipolis · 2006 · France

---

A 25×25 table is filled with numbers equal to 1 or -1. For every i, let a_i be the product of the entries of the i-th row and b_i the product of the entries of the i-th column. Show that $a_1 + b_1 + \cdots + a_{25} + b_{25}$ is non-zero.
