Two intersecting circles

Animath — Stage olympique de Sophia-Antipolis · 2006 · France

---

Let $\mathcal{C}$ and $\mathcal{C}'$ be two circles meeting at A and B. Let O be the centre of $\mathcal{C}$. Let C be a point of the arc $\overset{\frown}{AB}$ in $\mathcal{C}$. Let D and E be the intersections of (BC) and (AC) respectively with $\mathcal{C}'$. Show that (OC) is perpendicular to (DE).
