Xavier's 128 cards

Animath — Stage olympique de Sophia-Antipolis · 2006 · France

Xavier has 128 cards, each carrying a real number, these numbers being pairwise distinct. Sandrine may point to two cards and ask Xavier which one carries the smaller number. What is the minimum number of comparisons Sandrine must ask for to determine the card carrying the smallest number ?

How many additional comparisons must she ask for to find the second smallest card ?
