

Rational $D(1579)$ -quintuple

Problèmes ouverts — A. Dujella · 2026

Problem 5.7 (Dujella, 2026). Is there any rational $D(q)$ -quintuple for $q = 1579$?

Remark. This value $q = 1579$ is the smallest positive integer q for which no rational $D(q)$ -quintuple is known.
