# Enumerative Combinatorics — problem 5.28

A. Engel — Problem-Solving Strategies · 1998

---

Let $m \geq n$, $B_m = \{1, \ldots, m\}$, $B_n = \{1, \ldots, n\}$. The mappings from $B_m$ onto $B_n$ are called *surjections*. Find the number $s(m, n)$ of surjections from $B_m$ onto $B_n$. Use PIE.
